Annual salaries shown are for employees with 245 day (12 month) contracts. For employees on other contracts, first calculate their daily rate by dividing the salary shown for their cell by 245. Then multiply this times the employee's contract days.

For working retirees, the schedule above would be reduced by 5% (or 10% based on benefits election), and would have a 5 or 10 before the salary schedule name.

The schedule above includes a 2.0% cost of living increase over FY 2013-2014. There is no step movement.
