

## **Student Classroom Placement Process**

The creation of a positive learning environment for every student is one of the main goals of both Greenville County Schools and Buena Vista Elementary. I encourage parental input towards this end; however, the final decision for student placement on class rolls will rest with our teachers and the administrative team. We welcome parental input that will help us make the best decision possible when choosing a teacher for students. These are the appropriate ways to have parental input:

- ☺ Request that a child not be placed in a class with another child: This should be an extreme case, not a case where one child does not like another. In life, we need to learn to get along and resolve conflicts.
- ☺ Describe the type of learning environment that is best for your child. Also, share any specific issues or concerns that may affect your child's learning.

**All requests must be made in writing to Dr. Mohr by April 25, 2014.**
