Awards and Honors

The West Greenville School has been working with at-risk student populations for many years. We proudly offer a supportive, non-traditional effective learning environment for at-risk students by providing flexible educational objectives that take into consideration the learning styles and individual needs of our students. Although flexible in our approach, the academic setting and curriculum taught at West Greenville, addresses the South Carolina State Standards as well as the required goals and objectives that are defined in each students Individualized Education Program (IEP).

Accepting students from middle and high schools throughout the Greenville County School District; West Greenville School prides itself in offering small class sizes, highly qualified teachers, therapeutic counseling services through Greenville Mental Health (as needed), as well as individualized social services for students and their families. Additionally, West Greenville School provides a caring and supportive environment that focuses on all facets of learning; from challenging academics to rigid behavioral expectations. Academics are valued and rigor is maintained. Rules and regulations are clearly defined and are fairly and consistently enforced.
