

# Lawson FAQ: Requisition Center (RQC) Error - File does not exist.

## Requisition Center (RQC) Error: File does not exist.

When accessing Requisition Self Service → Shopping in Lawson, the user sometimes gets the following error message. Note that the message says “File does not exist”. Also, the Requisition screen does not have the normal look. In order to proceed with creating the PO/Requisition, the user must follow 2 simple steps:

1. **Click** on the OK button – the error message will go away.
2. **Click** on the New button – the Requisition screen will return to its normal look. The user can now proceed with creating the PO/Requisition.

OK Button
