Introduction

The Bethel Elementary School self-study was conducted to evaluate our strengths and weaknesses in order to develop goals and strategies. The portfolio provides our school with an ongoing means for self-assessment, communication, continuous improvement, and accountability. The staff was organized into committees to complete the self-assessment and to determine strategies for improvement. Parent groups, such as PTA Board and School Improvement Council, provided input regarding the school improvement plan.

Executive Summary

Central to everything we do is the belief that all children are capable of learning. High expectations challenge students to reach their greatest potential. We not only emphasize academic achievements, but also the importance of outstanding character and personal responsibility. Our daily goal is to facilitate our students' life-long journey to become responsible, caring individuals. Through the use of Continuous Quality Improvement, our students learn valuable problem-solving techniques, enabling them to become productive citizens beyond the walls of our school.

Students benefit from a nurturing environment that addresses their social and emotional needs while encouraging them to take an active part in a variety of school activities. Numerous clubs and school events are available in which students can participate, fostering school pride within a community of learners. Each year a school-wide theme promotes cohesiveness within our school family. This theme is woven into curricular experiences, visuals throughout the building, and school-wide events. A superhero theme accented the school environment throughout the year encouraging students, families, and staff to join together so our "Cardinals Fly High".

Needs Assessment Summary for Student Achievement

- 68.8% of students in grades 3-5 scored meets or exceeds in English language arts on the SCREADY assessment
- 68.8% of students in grades 3-5 scored meets or exceeds in math on the SCREADY assessment
- 63.7% of students in grade 4 scored meets or exceeds in science on the SCREADY assessment

Needs Assessment Summary for Teacher and Administrator Quality

The faculty is structured into teams and committees to involve all staff in decision making. These groups/committees are as follows:

- **Administrative Team**
 - Consists of the principal, assistant principals, instructional coach, and instructional technology specialist.
 - Reviews grade level minutes, information shared from the central office, lesson plans, student achievement, teacher evaluations, and school activities and events
 - Discusses instructional and operational issues to be addressed with grade level leaders, PTA, and SIC
- **Faculty Council**
 - Consists of the administrative team, grade level leaders, including special education, related arts, media specialist, and guidance/speech
 - Discusses instructional and operational aspects of the school
 - Disseminates information to grade level teams
- **Grade Level Teams**
 - Consists of the team leader and teachers from the grade level
 - Collaborates to create lesson plans
 - Shares best practices
 - Records minutes to be shared with the administrative team

Needs Assessment Summary for School Climate

As visitors approach our school, they observe an attractive exterior, adorned with freshly planted flowers, seasonal wreaths and flags. The lobby is welcoming and comfortable. A bulletin board outside the front office displays student work from a different grade level each month. Students, teachers and parents spend each day in an inviting facility where there is space to provide instruction and encourage learning. Developmentally appropriate classrooms support daily instruction. The administration outlines expectations and provides regular feedback to staff regarding classroom environment. Quality student work labeled with title and standard is attractively displayed in hallways. Eye-catching murals decorate the walls throughout the building. A local artist painted inviting outdoor scenes in our cafeteria to create a warm, friendly environment. Playground equipment is inspected regularly to comply with safety codes. Students, staff, and the community use the paved walking track to improve physical fitness. Sun shades provide an area out of the sun for students and teachers to enjoy.

Our maintenance staff, including one plant engineer and four custodians, maintains our appealing building and grounds. This staff takes pride in keeping the building clean and all equipment in working order. Maintenance of the school grounds and landscaping are included in custodial duties. Inspection results from energy audits are provided to the staff to create an awareness of energy saving efforts. To further ensure all issues are addressed, we use custodial inspections and survey results on the overall cleanliness of the school to make necessary modifications and improvements. The custodial staff, as well as school personnel, immediately reports all safety concerns, both inside and outside the building. Our well-maintained facility enables us to provide a safe learning environment for students and staff.

Our school utilizes the district Crisis Response Plan as well as daily operating plans to ensure the safety and well-being of students and staff. Evacuation maps are clearly posted in each room. Fire, lockdown, tornado, earthquake, and bus evacuation drills are held on a regular basis. Procedures are emphasized during classroom instruction on topics such as fire, bus, drug, personal, home and playground safety. Our school has several communication devices which contribute to a safe environment. For constant access, the administration, custodial and office personnel use two-way radios. A telephone is available in each room as well as a two-way intercom system with an emergency call button. Security measures are used to ensure safety in our facility daily. A full-time resource officer from the Mauldin Police Department patrols the school campus on a regular basis. Signs on all exterior doors instruct visitors to report to the main office, where they are required to sign in and out through RAPTOR, and receive a visitor's badge indicating a reason for the visit. Safety is assured with time-stamped video cameras, fire and motion detectors, security alarms, a weather radio, and a two-way radio linked directly to security at the central office. Establishing a safe, secure environment for our students and staff is a priority. As a result of our continued efforts, our school has continued to receive the Safe Schools Award.

School Profile

School Community

Bethel Elementary School was established between 1801 and 1810; the original school was housed in a one-room log building. In 1916, a two-room school replaced the original building, and the deed was transferred to the Board of Trustees. The school was built on its present site in 1964 to educate 477 students. Today, the school sits in the heart of the fastest growing region of South Carolina. Cornfields have given way to housing developments, country roads to highways. The tiny sand-colored school was enlarged to three times its original size in a \$6 million expansion in 1995. In 2015, we proudly celebrated our 50th Anniversary.

Currently, our school is one of nearly 100 schools in the county. We are located in a growing suburb in the Upstate. Our reputation of providing a quality education, caring faculty, and outstanding student achievement reflects the high expectations of our stakeholders. Parents and community value education as evidenced by PTA membership and dedicated volunteers.

Students benefit from a nurturing environment which addresses their social and emotional needs while encouraging them to take an active part in a variety of school activities. Each year a school-wide theme promotes cohesiveness within our school family. This theme is woven into curricular experiences, visuals throughout the building, and school-wide events. A video game motif accented the school environment throughout this year welcoming students, families, and staff to embrace the belief that we would "Level Up Cardinals!"

Since 1997, multiage classes have been an innovative option to consider in lieu of a traditional classroom setting. Our Primary Multiage consists of first and second graders, while our Intermediate Multiage has third and fourth graders. Thematic projects, STEAM integration, literature circles, and cooperative learning centers are incorporated based on curriculum standards.

Early identification and intervention of struggling students are critical components of student success. At the first sign of a struggling student, teachers intervene and develop strategies to assist the student. Intervention may include a change in delivery method to meet the student's learning style or additional remediation activities. Students are served through our Response to Intervention (RTI) and special education programs.

The Extended Day program offers a service to the school community and provides enriching, structured care for children. It is offered to students in all grade levels from 2:30-6:00 on school days. Students are provided homework assistance, recreational activities, snack, arts and crafts, and access to educational technology. While attending the program, students utilize computerized learning programs to impact academic achievement. Special events such as a talent show and outdoor water games are planned throughout the year.

Our counseling staff provides a high level of support services for our students. These services include school-wide character education, parent education, mentoring programs, classroom instruction, and small group and individual counseling. The school counselors conduct monthly classroom guidance lessons. Career Education is integrated into classroom lessons using SCOIS (SC Occupational Information System). Career interest inventories are completed and portfolios are created which expose students to career clusters.

Our Leaders

Mrs. Nurit' Sexton was named principal at Bethel Elementary in June 2024. In her 22 years as an educator with Greenville County Schools, Nurit' Sexton has continuously pursued professional growth and demonstrated her capacity for leadership. After 14 years as a teacher and math coach/interventionist at Armstrong Elementary, Ms. Sexton moved into school leadership as an Administrative Assistant at Mauldin Elementary. She was named PTA Administrator of the Year after just one year in that position. She has served as Assistant Principal at Woodland Elementary School, the largest elementary school in the District, since 2017, where she demonstrated strong instructional and operational leadership and contributed significantly to the school's recognition as Palmetto's Finest and Leader in Me school of Distinction. Ms. Sexton holds a B.A. in Elementary Education from Converse College and an M.A. in Executive Leadership from Gardner-Webb University. She has completed the GCS Aspiring Principal Institute, Instructional Leaders Academy, and Instructional Coach Institute.

Our intermediate assistant principal, Susan Skelton, has been at Bethel for over twenty years. She has a Bachelor's Degree in Elementary Education, a Master's Degree in Curriculum and Instruction, and an Educational Specialist Degree in Elementary/Middle School Administration and Supervision. She has over thirty years of experience in education, and seventeen of these have been in administration. She is a member of the South Carolina Association of School Administrators. Ms. Skelton was named Greenville County Schools Assistant School Administrator of the Year in 2011.

Carol Lynn McCuen is our primary assistant principal. She attended Furman University where she studied elementary and special education. Ms. McCuen graduated and began teaching for Greenville County Schools in 1996. She graduated again in June 2005 from Furman with a Master's Degree in School Leadership and Administration. She taught elementary aged students for nine years at Lake Forest Elementary, Grove Elementary, and Armstrong Elementary. Ms. McCuen has been an elementary school administrator over the past 12 years at Lake Forest, Welcome, and Bethel.

Parental and Community Involvement

Our administrators, teachers, and community are involved in the process of gathering data that encourages continuous improvement. Community and parent volunteers are an ever-present source of support. The School Improvement Council (SIC) and Parent Teacher Association (PTA) Board are comprised of community members, parents, teachers, and administrators providing leadership through which many decisions are made that impact the school. Meeting dates are published and open to the public. The SIC assists with developing the school improvement plan, the School Report Card narrative, Report to the Parents, and with identifying strengths and strategies for effective school improvement. School Report Card surveys are administered to students, teachers, and parents to evaluate all aspects of the school program. Results are also used to monitor communication efforts, program effectiveness, and community input.

Several programs support students academically, socially, and physically. Mentoring programs provide one-on-one tutoring and positive role models. Mentoring programs are designed to support students' self-esteem, behavior choices, character, and academic success. Service Learning and Teacher Pipeline programs utilize high school students who assist in the classrooms weekly. Mentor Upstate is a regional mentoring program in which our school pairs a dedicated adult from a local church with a child in need. The mentors spend quality time, one-on-one, with students who need positive adult role models. Backpack Blessings is a volunteer-based, donation-driven organization that provides bags of food to students each week.

Our school uses a variety of methods to effectively communicate with all stakeholders in a timely and continuous manner. Bethel Bulletin and Calendar News are school-wide PTA publications routinely distributed to families. They include details about upcoming events, contact information for the school, and times for all school activities. Located at the front of the school, an electronic marquee displays upcoming activities, opportunities, and student/faculty recognition. Classroom newsletters are also sent home and accessible through teacher's websites. Our school also utilizes social media, such as Facebook, Instagram, and Twitter, to communicate with the community. On Mondays, a phone blast is sent to parents, communicating all the events happening within our school that week. In addition to the phone blast, the script from the announcement is posted to the school's Facebook page and emailed to parents each week as well. On the second Monday of each month the principal does a Facebook Live meeting consisting of the weekly update and takes time to respond to community inquiries when applicable. Parents can also download the Bethel app, provided by PTA, to find pertinent information.

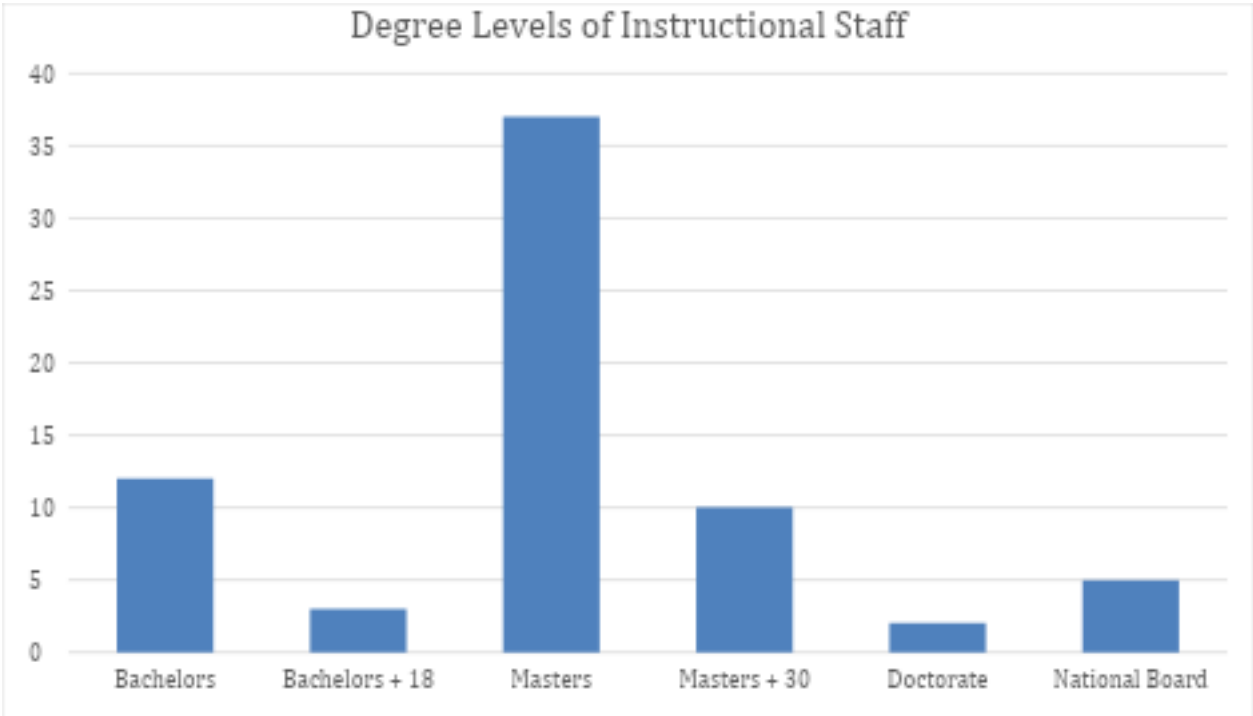

Our school website provides an extensive source of information for students, parents, and the community. Information is included regarding current school announcements, special recognitions, school newsletters, PTA and SIC information, school calendar, and a link to our Facebook page.

Active community involvement and strong parental support are essential to our school's mission of providing "a nurturing environment which encourages students to be productive citizens." Local businesses provide financial support. Community speakers present "Lunch and Learn" parenting workshops through our guidance department. Workshop topics include study skills, Internet Safety, and middle school registration. Our student shirts, uniquely designed for each classroom, are sponsored by Frasier Orthodontics. We are fortunate to work alongside a supportive community to benefit our school.

School Personnel

Our staff consists of forty-three classroom teachers. We have six related arts teachers, three of those are full time and three that are part time. There is a STEAM Lab teacher who serves first through fifth grade students and an Innovation Lab teacher that serves Kindergarten and 2nd through fifth grade students. Our special education department consists of three full time and one part time resource teachers, two speech teachers, and two self-contained classes that serve students with neurological and developmental disorders. Other support staff includes a gifted and talented teacher, a reading specialist, 2 full time and a part time reading interventionist, one

math interventionist, instructional coach, instructional technology specialist, two guidance counselors, an ESOL teacher, and a media specialist.

All of our teachers are highly qualified in the area in which they teach. We have 80.6% of our staff members that hold advanced degrees, and there are five teachers that have received National Board Certification.

Additional personnel include three office personnel, two school nurses, a plant engineer, four custodians, ten paraprofessionals, media center clerk, cafeteria manager, and eight food services workers. We have an extended day program with a director and thirteen staff members. Nine bus drivers (one special education) provide transportation services to our students. Other district personnel, such as the school psychologist and physical and occupational therapists serve as support to the instructional program and are available to assist in meeting the needs of the Bethel Elementary population.

Academic and Behavior Programs

The core curriculum provides rigorous learning activities in the areas of reading, math, science, and social studies. Essential learning is facilitated through the use of the South Carolina College and Career Ready Standards and correlating support documents, district-developed units of study, and supportive instructional materials. Twenty-first century learning skills are reinforced through student use of the media center, STEAM lab, and available technology.

Curriculum and framework for reading is based on Science of Reading with recent professional development provided by Lexia LETRS. Approximately two hours of instruction is allocated to Reading Workshop model each day. The Rigby Readers provided by HMH, along resources and strategies from Amira benchmarks are used to support the curriculum and the development of strategic readers. Teachers benchmark students in the fall to determine their instructional and independent reading levels. Groups are then formed to provide small group guided reading instruction focused on each student's level.

Writing is the tie that binds the curriculum and is integrated throughout other subject areas. The writing process is used to guide students from brainstorming to a published piece. Student work is published in many ways through individual or student created books, class displays, and as a part of local and state contests.

Our mathematics program is academically challenging. It is active, relevant, and integrated with other curriculum areas. The Big Ideas series is used in all grades to support the curriculum. Approximately one hour is scheduled for math each day. Students capitalize on previously learned knowledge, focusing on building number sense, basic numeric operations, algebraic concepts, geometric patterns and relationships, measurement, logical reasoning, probability, and statistics. Our instruction emphasizes problem-solving and hands-on strategies, which allow students the opportunity to make connections between classroom learning and real-life experiences. Daily number talks are warm-up activities used to spiral the curriculum. Hands-On Equations are used with our gifted and talented

students as an introduction to algebra. IXL and Dreambox programming is utilized by students to strengthen foundational math skills.

A wide variety of instructional materials are utilized to support the science curriculum. Teachers channel student interests into inquiry-based lessons addressing physical science, earth science, and life science. The curriculum resources provided by the state are used in all grades. District science kits are incorporated to provide a more hands-on approach to science. Teachers supplement science instruction through field trips to Roper Mountain Science Center, The Children's Museum of the Upstate, Riverbanks Zoo, Paris Mountain, Lake Conestee, and Cedar Falls Park.

The social studies curriculum integrates research, writing, and presentation skills as students are introduced to various aspects of our physical and social world. Teachers utilize the South Carolina standards, state support documents, and district curriculum guides to drive instruction. Student created interactive notebooks are a valuable tool used to facilitate the social studies curriculum. The textbook is a resource used by teachers as a supplemental material. Various publications, such as Social Studies Weekly, provide additional curriculum resources. Our fifth-grade students participate in real-life learning experiences such as WWII and Immigration Day. The curriculum is also supplemented through the integration of novels and field trips when appropriate. The amount of time allocated for both science and social studies instruction varies by grade level due to integration into other subjects through thematic units.

We implement an array of support services to address students performing above and below grade level. We provide services for English Language Learners through a pull-out program designed to assist them with overcoming language barriers. Students in kindergarten through third grade who read significantly below grade level participate in a Response to Intervention (RTI) program. Students in RTI receive 30 minutes of supplemental instruction daily in a small group setting that supports core classroom instruction. Kindergarten teachers use the Reading Horizons program to increase student learning. Gifted and talented students receive enrichment in all academic areas. These programs are data driven in order to identify the needs and best placements for students.

Counseling and Other Student Support Services

Our counseling staff provides a high level of support services for students at Bethel. Such services include school-wide character education through Re-Think Ed, parent education, classroom instruction, and small group and individual counseling. Our guidance counselors provide classroom and small group instruction in study skills.

School Initiatives

Since 1997, multiage has been an innovative option to consider in lieu of a traditional classroom setting. Our Primary Multiage classroom consists of a combination of first and second graders, while our Intermediate Multiage classroom has third and fourth grade students. Admittance to the multiage program involves an application process and selection by lottery. Thematic projects, literature circles, and cooperative learning centers are incorporated based on curriculum standards. Assessment is often times open-ended and respects differences in learning abilities, as well as levels.

Recently, Bethel has promoted a healthier school climate for students and employees. A team of staff members received training for CATCH (Coordinated Approach to Child Health). Strategies are implemented to support the CATCH program. A new Culinary Creations Menu was adopted in the cafeteria and students are encouraged to take advantage of the healthier options. Teachers infuse movement into their daily instruction. The PTA assists in our efforts by encouraging parents to provide healthier food options during class parties and student incentives. As a result our school has received numerous awards: American Heart Association's Fit-Friendly Worksite Gold Achievement and Greenville County Elementary Healthy School of the Year Award. Along with the Healthy School Award, we received \$1,250.00 to be used toward future wellness initiatives.

Enrichment Programs

Bethel offers many programs to enhance the educational experiences of all students. Among those offered are art, music, physical education, clubs, and Challenge. These programs play an integral part in students' growth and development and are based on state and national standards. Kindergarten and first grade students receive 4 – 45 minute related arts sections and 1 – 30 minute section in the media center weekly. Second through fifth students receive 45 minutes of instruction related arts five times a week.

In music, students participate in a variety of skills including singing, playing instruments, dancing, composing, improvising, and listening to music. These skills are not only important in allowing all students to be lifelong consumers of music but also in their education beyond the music classroom. Music can often help students remember facts in their academic subjects. There is also a direct correlation between songs and historical events. Performance opportunities reinforce intrapersonal development of students' intelligence.

Additionally, students in fourth and fifth grade can participate in chorus. This ensemble meets weekly before school for 45 minutes. Cardinal Chorus performs concerts during the school year and for community events such as the all-district chorus and Rotary Night. Students in fourth and fifth grade are invited to participate in an after-school strings program where they learn important note reading skills and how to play an instrument.

In visual arts, students study a variety of media including painting, mixed media, collage, printmaking and sculpture. Students understand an assortment of materials can be used for self-expression and that sculpture can be created for multiple purposes. Art allows students the opportunity to express themselves, be creative, and solve problems. Students make natural connections between the visual arts and other areas of the curriculum. They learn about art history and their connection to historical events.

Our physical education program is critical for children to develop fundamental motor skills. Motor skills strengthen social, cognitive and physical development, and increase the likelihood of participation in physical activity. While students are moving, they improve brain function, and as a result, classroom learning is enhanced. Classroom curriculum is integrated into physical education lessons whenever possible. In an effort to encourage physical activity and fitness, an Archery Club has been established for students in third through fifth grade.

Annually, the related arts team showcase their programs for the students and parents with an "All Arts Night." This event is a culmination of what students have learned throughout the year. "All Arts Night" allows students and parents the experience of learning about the arts and how a meaningful arts curriculum positively impacts the lives of students. The Principal's Art Gallery is also revealed showcasing selected artwork from students in all grades. Students in strings and chorus perform during event. The art teachers showcase the student's artwork in the hallways and include a fun scavenger hunt.

The media center promotes technology with the use of Promethean Panels and chromebooks. The media specialist work with teachers and students to support creative ways to share their ideas and research through technology.

Bethel's media center provides over 14,000 books to support students as they become lifelong readers and users of information. Primary grades visit the library once a week for 30 minutes which includes a lesson and book check-out. Grades 2-5 visit the library biweekly. The media specialist collaborates on a flexible schedule with teachers on projects, research, and technology.

To develop effective communication skills, rising fifth grade students audition for the Bethel Broadcasting News Team. The media specialist sponsors the Bethel News Crew and the "Battle of the Books" team. The Scholastic Book Fair is held in the fall and spring.

In addition, students who demonstrate higher skills or aptitude need opportunities to grow and accelerate their learning. Challenge, the gifted and talented program, is designed to meet the needs of academically gifted and talented students. In order to qualify for the program, students must meet the state criteria in aptitude, achievement, and academic performance. This pull-out enrichment program encourages inquiry, flexibility, creativity, and critical thinking. Third grade students attend Challenge for 125 minutes each week. Fourth and fifth grade students attend for 200 minutes each week. The program currently serves 118 students at Bethel.

Mission and Beliefs

Mission

The mission of Bethel Elementary School is to engage children in a nurturing learning environment and to provide a quality education.

Beliefs

We believe that:

- Students achieve best in a safe and inviting environment where they are engaged in learning.
- Students must have highly competent and caring teachers, principals, and support staff.
- Students must have equitable and high-quality educational opportunities that evolve and change to reflect the world around them.
- A successful educational culture empowers students to communicate and collaborate effectively, solve problems competently, think critically and creatively, and act responsibly.
- A successful educational culture develops students who are empathetic, respectful, resilient, and act with integrity.
- Embracing diversity and inclusion leads to mutual respect and breaks down barriers.
- Education is the shared responsibility of students, home, school, business, and community.
- Curriculum and instruction must meet the needs of all students and prepare each student for success.
- Early reading and mathematical thinking are the foundations for educational success.
- Our educational organization prepares students to value learning and contribute to society, which has a lasting positive impact on our communities.

Teacher and Administrator Quality

Professional development is determined by student achievement, district initiatives, teacher evaluations, and staff surveys. Some offerings are required by the school and/or district, while others are optional in order to meet the needs of individual teachers. A professional development calendar is given to teachers indicating training opportunities offered at our school.

School Climate Needs Assessment

South Carolina Report Card Survey Results

Our school administers surveys to students, teachers, and parents for the yearly **School Report Card**. Below is a summary of the results from 2022-2023 survey.

Results of Teacher, Student, and Parent Opinion Surveys

	Teachers	Students	Parents
Number of surveys returned	58	420	60
Percent satisfied with learning environment	100.0%	89.1%	98.2%
Percent satisfied with social and physical environment	100.0%	89.4%	98.1%
Percent satisfied with school-home relations	100.0%	93.0%	97.7%

*Only students in third through fifth grade and parents of all enrolled students were surveyed.

Parents, students, and teachers all reported high levels of satisfaction in all areas of the survey. After looking closely at the data for 2022-2023, the following statements had lower rates of satisfaction and could be viewed as challenges:

Parents

My child’s school schedules activities at times that I can attend. (22.1% disagreed)

Students

The bathrooms at my school are kept clean. (41.8% disagreed)

Based on this data, strategies have been developed to address these areas of concern. The Action Plan that follows includes strategies that will be implemented.

Behavior Data

During the 2023-2024 school year, 713 referrals were issued to students. The top three behavior categories were as follows:

- 314 Truancy
- 123 Bus Violations
- 114 Inappropriate Behavior

Volunteer Hours

Bethel Elementary logged a total 4,486 volunteer hours.

Attendance/Absenteeism

The daily attendance rate for students at Bethel Elementary 94.41%.

Home/School Communication

85.08 % of families have created and utilized the Parent Backpack application.

Adding this very small number of students has not impacted program quality or instructional implementation, as evidenced by KRA readiness data. Each 4K class includes one early childhood certified teacher and one instructional aide, both of whom receive annual training specific to high quality early childhood programming.
