GREENVILLE COUNTY SCHOOL DISTRICT

SCHOOL RENEWAL PLAN FOR YEARS 2013-2014 through 2017-2018 (five years)

SCHOOL RENEWAL ANNUAL UPDATE FOR 2017-2018 (one year)

Assurances

The school renewal plan, or annual update of the school renewal plan, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) and the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 and §59-139-10 *et seq.* (Supp. 2004)). The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the school improvement council are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

***REMINDER:** If state or federal grant applications require representation by other stakeholder groups, it is appropriate to include additional stakeholders to meet those requirements and to ensure that the plans are aligned.

ASSURANCES FOR SCHOOL PLAN

(Mandated Component)

Act 135 Assurances

Assurances, checked by the principal, attest that the district complies with all applicable Act 135 requirements.

- x **Academic Assistance, PreK–3**
The district makes special efforts to assist children in PreK–3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).
- x **Academic Assistance, Grades 4–12**
The district makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).
- x **Parent Involvement**
The district encourages and assists parents in becoming more involved in their children’s education. Some examples of parent involvement initiatives include making special efforts to meet with parents at times more convenient for them, providing parents with their child’s individual test results and an interpretation of the results, providing parents with information on the district’s curriculum and assessment program, providing frequent, two way communication between home and school, providing parents an opportunity to participate on decision making groups, designating space in schools for parents to access educational resource materials, including parent involvement expectations as part of the principal’s and superintendent’s evaluations, and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.
- x **Staff Development**
The district provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council’s revised *Standards for Staff Development*.
- x **Technology**
The district integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.
- x **Innovation**
The district uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. Provide a good example of the use of innovation funds.
- x **Collaboration**

The district (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).

x **Developmental Screening**

The district ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

x **Half-Day Child Development**

The district provides half-day child development programs for **four-year-olds** (some districts fund full-day programs). The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools.

x **Developmentally Appropriate Curriculum for PreK–3**

The district ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.

x **Parenting and Family Literacy**

The district provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriated education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but generally is most appropriate for parents of children at the primary and elementary school levels and below, and for secondary school students who are parents. Family Literacy program goals are to strengthen parent involvement in the learning process of preschool children ages birth through five years; promote school readiness of preschool children; offer parents special opportunities to improve their literacy skills and education, a chance to recover from dropping out of school; and identify potential developmental delays in preschool children by offering developmental screening.

x **Recruitment**

The district makes special and intensive efforts to **recruit** and give **priority** to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. “At-risk children are defined as those whose school readiness is jeopardized by any of, but no limited to, the following personal or family situation(s): Educational level of parent below high school graduation, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity

within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.

x **Coordination of Act 135 Initiatives with Other Federal, State, and District Programs**

The district ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

1. Introduction

This report was developed to document the changes and progress our school has made while working to advance teaching and learning. The self-study process and resulting report provides our staff with an ongoing means for self assessment, communication, continuous improvement, and accountability.

Our mission, vision, and action plan comprise a living document that describes Eastside High School and includes actual evidence of our work. It describes who we are, our vision for the school, goals, plans, progress, and achievements within the context of our student demographics and our school needs. This report also describes how we build and utilize our overall school plan for the purpose of increasing student learning – our ultimate outcome.

Our Leadership Team—teachers elected by our faculty—serves as the steering committee for this work based on input from our entire faculty. Our PTSA, our School Improvement Council, and our Student Government are also vital to our process.

In Spring of 2013, we reviewed the areas of need as defined in our last strategic plan. Stakeholder groups including teachers, students, and parents were asked to review the list of needs and to provide evidence that we had or had not progressed toward meeting them. These same stakeholder groups reviewed our vision and goals and provided input for a new vision and goals. As we turned in our process from a review to planning for the future, our academic departments also set goals. Our action plan is a result of this input. It was reviewed and approved by our faculty, our Student Government, our PTSA, our Leadership Team, and our School Improvement Council.

We have overcome many obstacles, and we continue to face many challenges. We have many programs that are sources of great pride for our school. We are pleased that we have set

and maintained a standard of excellence in the face of potential barriers. We are proud of our school and look forward to sharing it with you. Please enjoy this comprehensive report as it provides the story of who we are and how we work together to continuously improve our school.

2. Executive Summary

Student Achievement Summary

Because of the increasingly diverse nature of our student body, student learning needs are constantly evaluated. Our ESOL population continues to grow; therefore, our teachers actively strive to incorporate ESOL strategies into their daily lesson plans. At Eastside we are focused on improvement for our entire student body, not just those students who comprise the lower quartile. This requires our teachers at every level to push students to perform at their maximum potential. Often, we find that our Honors/AP Level students, because they are naturally gifted, will exert the minimum effort required to make B's and C's when A's are well within their realm of possibility. We are also dedicated to increasing enrollment in our AP and Honors level classes while maintaining the necessary rigor. We are focusing on providing our students the necessary tools for success on the standardized tests which they take. Our Professional Development focus over the past two years has been student centered learning and achievement for all students.

Our new measurable goals for student achievement are as follows:

- Performance Goal 1: ACT federal and state accountability objectives will be met.
- Performance Goal 2: ACT federal and state accountability objectives will be met for % tested.
- Performance Goal 3: ACT WorkKeys federal and state accountability objectives will be met.
- Performance Goal 4: SAT Verbal score will increase to 518 by 2018
- Performance Goal 5: SAT Math score will increase to 529 by 2018
- Performance Goal 6: EOCEP English pass rate will increase to 81.6% by 2018
- Performance Goal 7: EOCEP Algebra pass rate will increase to 87.6% by 2018

Performance Goal 8: Meet the AMO of 95% students testing for all ELA and Math tests
Performance Goal 9: EOCEP Biology pass rate will increase to 91.4% by 2018
Performance Goal 10: EOCEP US History pass rate will increase to 79.1% by 2018
Performance Goal 11: AP scores of 3 or above will increase to 74.6% by 2018
Performance Goal 12: Graduation rate will reach 87.7% by 2018

Teacher/Admin Summary

All teachers will obtain Highly Qualified Status by 2018. Professional Development opportunities at the school, district and state level will be provided to ensure that all teachers have the opportunity to gain this status.

School Climate Summary

Student attendance rate will maintain at a rate of 95% or higher and suspension/expulsion rate will maintain at a rate below 1.0% of the student population. Teachers, students, and parents who are satisfied with the school learning environment and safety will continue to increase each year. School wide committees are in place to research programs which will address each of these areas for us. These committees are comprised of teachers, administrators, students and parents.

Significant Challenges From the Past 3 Years

Eastside's challenges stem from our changing population of students which we serve. As noted in our profile, the demographics have shifted including free and reduced lunch population, ESOL population, minority population. This shift, along with a cultural shift in our society, presents us with a continuing challenge of revising instructional strategies to meet the changing needs of our students.

Accomplishments/Results During the Past 3 Years

A significant, ongoing accomplishment involves our school's progressive approach to innovative programs. Programs that especially stand out are the following: cognitive tutor math support, Rosetta Stone Spanish instruction, parent portal, curriculum night, and community outreach events. We have also recently implemented APEX online learning, virtual course recovery and we send students to the district's Twilight school program.

The district supported Power Teacher grading system and the Parent Portal provides information to parents. The Parent Portal allows parents to view grades, attendance, discipline, transcripts and other pertinent student information. Students and parents are given codes to access their information anytime via the Internet. The program facilitates communication between teacher, student, and parent.

The Guidance Department not only strives to meet individual student needs during the school day, it also holds evening meetings where parents can ask questions. This is very valuable since many parents work and are unable to speak or meet with counselors during the work day.

Our SIC has started two new programs: Hispanic Outreach Program for our ESOL families and Community Connections for our students and families who are bused in from further away neighborhoods.. The Hispanic Outreach Program holds information nights each year. Parents are given the opportunity to learn about the school and also to interact with the committee members (all teachers from various departments) regarding helpful strategies for their children. Students are translators for non-English speaking parents. The most recent outreach program included guests from the local Hispanic Alliance who were very well received by the parents and the students. The new Community Connections program hosted a dinner with a

guest speaker, Mr. Lavelle McCray. This was held at a local community center and centered around building relationships with families in that community who are not able to easily attend events at Eastside High School.

3. School Profile

School Profile Summary

Eastside High School's enrollment has risen over the last several years from 1,176 students in 1999-2000 to 1,454 students in 2015-2016. The configuration by grade level is as follows: 9th 385 students, 10th 363 students, 11th 374 students, and 12th 332 students.

Our enrollment includes over 200 students who do not reside in our attendance area but attend through the special permission choice program. The ethnicity of our students is as follows: 68% are white, 14% are African American, 10% are Hispanic, 3% are Asian, 4% are multiracial and other. Our white population has decreased over the past five years, while our minority groups have all increased in that time frame. Our free and reduced lunch numbers have increased from 7.7 % in 1999-2000 to 25% in 2015-2016. This group has increased over 400% in the past decade. In 2015-2016 our ESOL students comprised 9% of our population. Our student attendance rate is steady at 95% - 96%. Eastside High School has eighty-nine faculty members. We continue to recruit Highly Qualified (HQ) teachers in all subject areas. All teachers are deemed HQ according to federal guidelines.

"STRENGTH THROUGH HUMAN UNDERSTANDING," our school motto, has served as the school focus since 1970. Our school first opened its doors in August of 1970 to 650 students from four neighboring schools. During its first year, the school established school colors of royal blue and gold, chose the eagle as its mascot, decided upon its motto, printed its first

school newspaper, and began its first yearbook. The school also formed its chapter of the National Honor Society and began its marching band.

By 1973, the student body had doubled in size and the building had also been enlarged to accommodate this growth. The 1980's saw the student population increase to over 1,400. In the same year, math teacher Dr. Alexia Latimer established the first computer lab in the school district here at Eastside. Natural Helpers, a national peer counseling organization, was established at our school as the first in the school district as well as in South Carolina. The 1990's witnessed the construction of a new football stadium and also ushered in the concept of Site-Based Management. As the twenty-first century unfolds, all schools face the impact of accountability legislation. Our demographic composition is changing rapidly as we work to meet the new legislative regulations. In the midst of this change, our school has earned an Excellent or Good rating for academics every year since South Carolina introduced state report cards.

Twelve principals have led our school in its forty-three year history. The longest tenure has been ten years. Our current principal is in his fifth year at Eastside. The balance of the administrative team is comprised of three assistant principals, one administrative assistant and one instructional coach.

We have changed over the years from a predominately upper-middle class white student body to an increasingly diverse ethnic and socio-economic population. The white population declined for the first time in 2003, while the Hispanic population has quadrupled in the same time. In addition, the number of students who qualify for free and reduced lunches continues to rise.

While some of our parents are difficult to reach, we have very high parent involvement overall. Our parents volunteer thousands of hours to the school each year. While most of our

students attend college in South Carolina, namely at Clemson and USC-Columbia, we have graduates at the University of Georgia, Frances Marion University, Gardner Webb College, University of Alabama, College of Korea, Colombia International College, Georgia Southern University and the Performing Arts Center of Los Angeles. Greenville Tech and Tri-County Tech are also popular schools for our graduates. Averaging over 2,000 conferences each year, our guidance counselors play a crucial role in helping our students to plan for their futures.

As we continue to look for ways to reach out to our non-English speaking parents, our PTSA and SIC have committed to translating its newsletter into Spanish and recently won a grant to assist with outreach to all parents of students in our ESOL population. Our school is the fulfillment of a vision, inspired by her leaders -- students, teachers, administrators, parents, and all the supportive citizens of the community -- a team effort that gives special meaning to "Eastside High School: Engaging Minds. Embracing Community." which is our current tagline.

School Personnel Data

Eastside High School’s teaching staff is seventy in number with fifteen support staff.

The gender, ethnicity, and education levels of our teachers are detailed below.

Gender		Ethnicity	
Male:	33	White:	92%
Female:	48	African American:	8%
Education		Attendance Rate	94.9%
BA:	33.3%		
MA:	66.7%

- E) Dropout rate
1.7%
- F) Gifted & Talented Enrollment
46.5%

School Programs/Initiatives:

Our school programs include literacy across the curriculum to support test scores and State Standards. Our math department uses Carnegie Learning strategies in the low level courses and will implement those text books in the next school year. Cognitive Tutor software is also being used by our math department. We use Learning Focused strategies in our classrooms extensively and all teachers plan using Essential Questions. In recent years, we have implemented programs for our ESOL population, our At Risk population, our repeat 9th grade population, and our seniors who are at risk of not graduating on time.

4. Mission, Vision, and Beliefs

Values and beliefs are the core of who we are, what we do, and how we think and feel. Values and beliefs reflect what is important to us; they describe what we think about work and how we should operate. Staff was asked to brainstorm independently before we, as a group,

agreed upon our core beliefs about what instruction, curriculum and assessment strategies will increase our students' learning. Our core beliefs are as follows:

- All students can learn.
- Students must be active participants in their own learning.
- Education is a shared responsibility of the home, the school, and the community.
- The academic program is the primary focus of the school.
- Extra-curricular activities are a valuable component of the total school program.
- Students learn best in a safe, disciplined environment nurtured by teachers, principals, support staff and community.
- Character development and mutual respect are essential for a positive learning environment.
- Educational experiences should encourage and enable students to learn to communicate effectively, solve problems competently, think critically and creatively, and act responsibly.
- Learning is a lifelong process.

Eastside High School's mission is to provide an educational program in a positive atmosphere that will ensure both quality and equity. Academic courses and extra-curricular programs will provide lifelong learning experiences for our community; furthermore, our vision is to be recognized as a school of excellence through our achievements in academics, athletics, and the arts.

5. Data Analysis and Needs Assessment

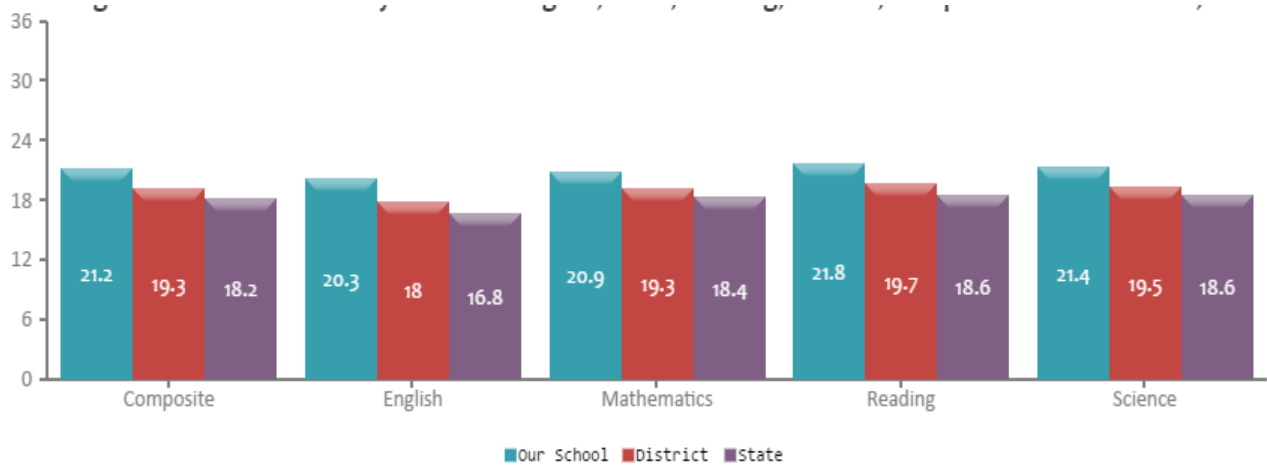

Student Achievement & Needs Assessment

Since the needs of our students are as diverse as the students themselves, a constant review of academic data provides our teachers and school leaders with a more accurate assessment of student progress. In the last ten years the free/reduced lunch population at Eastside High has increased 400%. Additionally, the Hispanic student population now makes up over 10% of the student body. Standardized test scores tend to mirror the socioeconomic composition of the family; therefore, we continually seek new ways to reach all our students.

During the 2011-2012 school year, we participated in a faculty wide book study researching the unique needs of our students based on the research of Dr. Robyn Jackson. About half of our teachers have also been trained to use an inquiry-based pedagogical style based on the learning theories of Dr. Richard Paul of the Foundation for Critical Thinking.

Some additional data was analyzed to help us find growth areas. Discipline referrals have decreased over the past few years. The more time students spend in class, the better they perform overall. Our graduation rate is slowly rising (88.0% in 2015) and guidance and administration work on our drop-out problem in a collaborative effort in increase this rate and help our students stay in school. Our student attendance rate continues to remain high (95.5%), and all our teachers are deemed Highly Qualified by the federal NCLB standards.
