SCHOOL RENEWAL PLAN FOR YEARS 2024-25 through 2028-29 (five years) SCHOOL RENEWAL ANNUAL UPDATE FOR 2025-26 (one year)

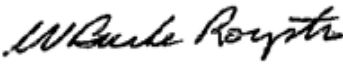

Required Signature Page

The school renewal plan, or annual update, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) (S.C. Code Ann. §59-139-10 *et seq.* (Supp. 2004)), the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 *et seq.* (Supp. 2004)), and SBE Regulation 43-261. The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the School Improvement Council, and the School Read to Succeed Literacy Leadership team lead are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

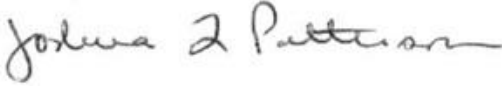

Assurances for the School Renewal Plans

The assurance pages following this page have been completed and the district superintendent's and school principal's signature below attests that the school/district complies with all applicable assurances requirements including ACT 135 assurance pages.

<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Parent Involvement The school encourages and assists parents in becoming more involved in their children's education. Some examples of parental involvement initiatives include making special efforts to meet with parents at times more convenient for them; providing parents with their child's individual test results and an interpretation of the results; providing parents with information on the district's curriculum and assessment program; providing frequent, two way communication between home and school; providing parents an opportunity to participate on decision making groups; designating space in schools for parents to access educational resource materials; including parent involvement expectations as part of the principal's and superintendent's evaluations; and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Staff Development The school provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council's revised Standards for Staff Development.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Technology The school integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Innovation The school uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Collaboration The school (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Developmental Screening The school ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Half-Day Child Development The school provides half-day child development programs for four-year-olds (some districts fund full-day programs). The programs usually function at primary and elementary schools. However, they may be housed at locations with other grade levels or completely separate from schools.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Developmentally Appropriate Curriculum for PreK-3 The school ensures that the scope and sequence of the curriculum for PreK-3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Parenting and Family Literacy The school provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and how to be full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriate education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but is generally most appropriate for parents of children at the primary and elementary school levels and below as well as for secondary school students who are parents. Family Literacy program goals are to strengthen parental involvement in the learning process of preschool children ages birth through five years; to promote school readiness of preschool children; to offer parents special opportunities to improve their literacy skills and education; to provide parents a chance to recover from dropping out of school; and to identify potential developmental delays in preschool children by offering developmental screening.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Recruitment The district makes special and intensive efforts to recruit and give priority to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. "At-risk children are defined as those whose school readiness is jeopardized by any of, but not limited to, the following personal or family situation(s): parent without a high school graduation or equivalency, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.
<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Coordination of Act 135 Initiatives with Other Federal, State, and District Programs The district ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

Introduction

Sterling School is home to two programs: Sterling Elementary, serving 256 students 4k-5th grades, and Charles Townes Center, a select program for 457 highly gifted students (grades 3-8). The programs operate within a single school and will be guided by unified beliefs, vision, and mission.

The School's leadership team and teaching staff have worked this year to identify key areas for growth and intentional focus in order to continue to advance itself over the next five years. Student achievement data, staff and parent surveys, and feedback from the School Improvement Council were all used to help develop the current School Portfolio.

Executive Summary

Student Achievement

Students in the Sterling Program come to us from diverse backgrounds, cultures, and challenges. As a staff, we work to build the foundational skills and knowledge required to close the achievement gap between our students from poverty and our students from higher socioeconomic backgrounds. In order to do this, we plan to implement the following strategies:

- Ensure students have the necessary skills and supports to successfully read on grade level by third grade and to acquire prerequisite math skills for each grade level.
- Ensure math and literacy curriculum and instruction meet the needs of all learners through remediation, differentiation, and personalized learning.
- Create and implement professional learning experiences that teachers and staff can use to meet the needs of all students.

Teacher and Administrator Quality

Both the Sterling and Charles Townes Center Programs require highly trained faculty and support staff to meet the needs of our students. Highly gifted students require high levels of social and emotional support as well as a very rigorous, challenging, and personalized academic environment. Students from poverty require high levels of social and emotional support, intensive academic support, and personalized academic environment. To meet these diverse needs, Sterling School will implement the following strategies:

- Further community partnerships to encourage early interest in education among diverse student and community groups.
- Identify and expand community outreach programs that have been most successful in recruiting highly qualified candidates.
- Provide differentiated professional development to faculty and staff.
- Collaborate across grade levels and programs to best serve each child and family.
- Continuously use benchmarks and other formative assessment data to inform instruction and tailor PD to meet the instructional needs of the faculty.

Climate

Surveys of students, parents, and staff indicate general approval of the education that students at Sterling School receive. However, data relating to student discipline indicates that more work needs to be done to help our students learn how to navigate peer relationships and we need to improve communication and collaboration between school and home. Specifically, Sterling School will:

- Utilize trauma-informed practices
- Continue training faculty and staff on responsive classrooms
- Integrate soft-skills and character education into content areas when appropriate
- Build upon the advisory curriculum for middle school students
- Streamline communication between school, PTA, and home
- Increase opportunities to partner with families and community organizations
- Continuously assess and address potential safety concerns
- Continue to build a unified school across both programs with such diverse populations and needs.
- Provide the instructional support required to promote success for all students, especially our struggling learners.
- Continuously improve instructional practices and remain innovative in meeting the academic needs for all of our students, especially our highly gifted learners.

Accomplishments

Over the last five years, Sterling School has made significant strides in our overall academic achievement. We are proud of our recent accomplishments as we have partnered with PTA, SIC, and our school community to strengthen the instructional programming we provide to all students.

School Profile

The Sterling School contains two unique programs under one roof, the Sterling Program and the Charles Townes Center. As a school, the student population consists of a diverse group of learners. The Sterling Program, grades preK-5, features a more traditional community based option, attended by many students within the local Nicholtown Community, an historic African American neighborhood. The Sterling Program student population consists of approximately 80% from poverty and 75% are from ethnic minorities. The Charles Townes Center, students identified as highly gifted in grades 3-8, is attended by students across the entire district. The student make-up includes approximately 10% from poverty and 25% from ethnic minorities. School-wide, the student population consists of approximately 40% from poverty and 45% from ethnic minorities.

The two programs are guided by unified beliefs, vision, and mission, but with differentiated methods for meeting the respective needs. Our unique type of dichotomy provides an opportunity to capitalize on student collaboration and teamwork delivered by hands-on, inquiry-based instruction, integration of the arts, and a focus on research while utilizing current technology. Even though the demographics of each group are vastly different, students from both programs are afforded continued opportunities to engage and interact with one another. School leadership makes an intentional effort to unify the student experience while respecting the uniqueness of each program.

Resources are shared between programs and all students are offered opportunities to engage, challenge, and learn from each other in a manner that is culturally/personally affirming and academically rich. Fostering a sense of community where each student, teacher, and parent knows they are respected and valued is critical. The programs take advantage of the opportunity to experience education at its highest level. By participating in a joint endeavor, all members of Sterling School deepen their understanding of issues, which influence our community and country, gaining a keen perspective of the diversity that characterizes our world. Additionally, there are frequent opportunities for students to contribute to the exchange of ideas and knowledge, both within and beyond their learning community. Beyond the academic statistics, it is the emphasis of the parents and community that all students learn how to be independent, learners and leaders of their own lives.

One of Sterling School's most commendable efforts lies in its support and advocacy of meeting the needs of the Whole Child, a framework for ensuring that every child is healthy, safe, engaged, supported, and challenged. A Whole Child approach provides the framework for an environment in which each student receives a personalized educational experience that allows them to explore their world, be enriched, and excel both academically and emotionally as they prepare for challenges today and tomorrow. At the core, Whole Child requires strong partnerships between educators, families, and members of the community to ensure that each child receives the learning and schooling experience they need and deserve to realize their full potential.

Mission, Vision, and Beliefs

Sterling School seeks to create an environment in which each student receives a personalized educational experience that allows them to explore their world, be enriched, and allow them to excel both academically and emotionally as they prepare for the next challenge they face at school and in life.

This effort is achieved through a whole child approach. The five tenets that encompass the framework are based on Abraham Maslow's Hierarchy of Needs. Maslow arranged his needs into a hierarchy to illustrate the foundational requirement of one need in order to successfully strive and obtain the next. Reflecting Maslow's hierarchy, ASCD's Whole Child tenets are arranged in a hierarchy: Healthy, Safe, Engaged, Supported, and Challenged. If the child is not healthy, then how can that child be expected to be engaged or challenged in classroom activities? If the child does not feel physically or emotionally safe, then how can that child truly be expected to think freely, collaborate with others, and explore their boundaries? While one tenet does not need to be perfected before working on the others, there is still an underlying understanding that an imperfect previous tenet will hamper further growth and progress.

We ensure the actualization of the tenets through a rigorous, inquiry-based curriculum that is data-informed and personalized to our students' varying needs. Our school is focused on providing tailored instruction through a framework of guided practice, project/inquiry based learning, and blended instruction (to support our school's 1:1 initiative). Teachers also receive training/support around best practices in social emotional learning: advisory for middle school, trauma-informed training/practice, Zones of Regulation and restorative practices.

Our school strives to meet the current needs of students while successfully preparing students for life beyond high school. Implementing a whole child approach to education and ensuring that every child is safe, healthy, supported, engaged, and challenged must be more than rhetoric. Research and common sense support the advancement of student's social, emotional, and academic development. Thus, bringing the vision of Whole Child into reality requires the active support of all stakeholders.

Each 4K class includes one early childhood certified teacher and one instructional aide, both of whom receive annual training specific to high quality early childhood programming. The increase of classroom size from 20 to 23 is well under the SDE 5K maximum class size of 30 and is lower than the GCS maximum 5K class size of 26. In addition, the SC Child Care Licensing Standards have an even higher staffing ratio of one adult for 17 children.
