### **Inquiries/ District Responses**

Before the solicitation inquiry deadline of **August 13, 2024**, the District received inquiries regarding this solicitation. The District's response to the questions follows in **bold** font.

1. Ability for users to be rostered at multiple locations (multi-locational) - We are not understanding what this means. Can you explain? **We are looking for a solution that, at minimum, meets the OneRoster standard and has the ability to roster students who are at their home-based school, but also can roster students who participate in a program that is off-site from their home-based school, i.e., career center, etc.**
2. Ability for rosters to be imported via Classlink - We are confused about how many rostering possibilities that you need? Is it just one? If we can do CSV, do we also need to do CLEVER and CLASSLINK as well? Please advise. **Greenville County Schools prefers rostering through Classlink because it meets, at minimum, the OneRoster standard.**
3. Ability for users to sign in via Single Sign-On (SSO) - Is this only via CLEVER - or any single sign on? **Greenville County Schools prefers rostering through Classlink because it meets, at minimum, the OneRoster standard and has an SSO option we prefer.**
4. Ability for school based reporting, i.e., classroom teacher, school based administrator. What does this mean? **We need a solution that can provide reporting to our teachers, school administrators, and district administrators. Reporting could include usage, access, etc.**

5. Please share your business continuity plan - We do not have this. Does this exclude us from submitting? **A business continuity plan is going to be critical and should be included.**

Thank you for your interest in the District.
