

University of South Carolina Online Graduate Degree Programs

M.Ed in Teaching

Become a teacher leader and impact student learning

Designed for working teachers, the M.Ed. in Teaching is designed for certified teachers who wish to impact more than just the classroom and provides strategies for evaluating and solving educational challenges on the district, school and individual student levels. This online M.Ed. is structured to fit the process for National Board Certification and allows you to become an influential teacher leader through nationally recognized curriculum and training.

M.Ed in Educational Administration

Expand beyond the classroom - Earn your online Master in Educational Administration

The M.Ed. in Educational Administration is designed for certified teachers who aspire to move from the classroom, into principal or administrative positions, and make an even greater difference for their students, schools and communities. This online M.Ed. focuses on the theoretical and practical aspects of principalship and administration necessary to advance into leadership positions. Courses are taught by professors who are accomplished in their prior roles as superintendents, principals and high-level administrators. Each one is committed to teaching you the leadership methods they helped to develop.

Ed.D. in Curriculum & Instruction – Curriculum Studies Concentration

Prepares curriculum practitioners for university professorships, district-level curriculum administration, and school-level instructional and leadership positions

The Doctorate / Ed. D. in Curriculum and Instruction with emphasis in curriculum studies stresses the importance of core and diverse curriculum issues and prepares comprehensive curriculum practitioners for university professorships, district-level curriculum administration, and school-level instructional and leadership positions. The program emphasizes concerns for equity and social justice, self-knowledge, cultural issues, and human growth and development through a praxiological (theory/practice) approach to diversity education. The program provides an in-depth understanding of the history, concepts, current techniques, strategies, and issues of diversity in school, institutional, and community settings and facilitates self-reflection for engaging in diversity education.

Ed.D. in Curriculum & Instruction – Educational Technology Concentration

Prepares leaders with the development of sound principles and techniques of instructional systems design plus technological competence.

The Doctorate of Education in Curriculum & Instruction — Educational Technology Concentration is designed for professional educators in K-12 and higher education institutions. This Ed.D. prepares leaders for the challenges of technology-based learning, instruction, and training with practical, project-based emphasis on design, development, implementation, evaluation and research.
