

POWER MY LEARNING

Your destination for the best free online learning activities from across the web!

PowerMyLearning.com is a free web platform for K-12 students, parents, and educators. Now there's one trusted place to find and use over 1,100 engaging academic games, videos, and interactives in subjects like math, language arts, science, and more! Over a decade of experience partnering with schools around digital learning gives the nonprofit behind this platform unique expertise in selecting activities with the greatest educational value. PowerMyLearning offers educators a set of powerful tools for individualizing learning and supporting instruction in the classroom and beyond. Also, it lets families discover stimulating activities to reinforce classroom learning and spark new interests. PowerMyLearning is a free and flexible way to integrate blended learning into your instructional practices.

A groundbreaking learning innovation

- ◆ Search activities quickly by subject, grade, and other filters like Spanish-language support, minimizing guesswork and saving time.
- ◆ Facilitate integration of the Common Core State Standards with math activities tagged by domain, cluster, and individual standard.
- ◆ Differentiate learning by sequencing activities into customizable *Playlists* that can be assigned to an individual student or class.
- ◆ Create effective blended learning environments in classrooms or labs and monitor student usage via a simple reporting dashboard.
