

Magnet Academy Information

The district's magnet academies of accelerated learning offer unique educational choices to the students of Greenville County to meet their individual needs. The academic program of each magnet academy offers a theme or focus that is designed to give students an opportunity to explore a special interest, gift, talent or skill.

Each magnet academy will conduct an open house to explain the magnet application process and discuss the unique characteristics of its magnet program. At this time, some schools have opted for a virtual format to accommodate more participants. Please see the schedule below for each academy's open house date, time, and format, and please continue to check each academy's website for any updates to their open house schedule:
