

Magnet Academy Information

The district's magnet academies of accelerated learning offer unique educational choices to the students of Greenville County to meet their individual needs. The academic program of each magnet academy offers a theme or focus that is designed to give students an opportunity to explore a special interest, gift, talent or skill.

This year, due to social distancing requirements in schools, each magnet academy will offer a Magnet Open House video posted to their school's main website. These videos will explain the magnet application process as well as provide more information about the school's program. Please see video release dates below.

****Stone Academy, League Academy, and Carolina Academy will host additional live virtual meetings on the dates and times listed below.**
