

Parent Guide to Google Classroom

Bryson Middle School

What is Google Classroom?

Google Classroom is a learning management system that your child uses to find, create, and submit their digital assignments.

Each teacher creates their own classroom where they are able to digitally interact with their students while sharing assignments, content, activities, and fostering collaboration.

How can you access Google Classroom?

Parents/Guardians are able to access their child's Google Classroom by:

1. Request to receive an email summary of your child's assignments
2. From the district issued Chromebook, ask the student to log in and launch Google Classroom

Please note that any activity in Google Classroom is documented under the student's login, and it would be inappropriate for a parent to communicate with the teacher or other students in Google Classroom. Parents should use their personal email to digitally communicate with the teacher.

What do Guardian Email Summaries include?

-Missing Work - work that is late and was not “turned in”

-Upcoming Work - work that is due today and tomorrow (daily emails) or work that is due in the upcoming week (weekly emails)

-Class Activity- announcements, assignments, and questions recently posted by teachers

Please note this is ONLY a summary and you will not be able to view the actual work/assignments
