

Cherrydale Elementary School Parent Resource Room

Operating Procedures

Cherrydale Elementary School Parent Resource Room will be located in the Cherrydale Elementary School Learning Cottages. We have games, flash cards, books and various other materials that can be checked out to help you help your child at home. The resource room will be open by appointment. Items are checked out for a 5 day period and can be extended by coming in and rechecking the materials out. You will be able to only check out the same item for 2 five day periods (2 weeks). We want to be fair and make sure that materials are shared with all families.

Contact Dr. Sharolyn Simmons at 355-3330 to set up a time to view and/or check out the resources that we have available. Please let us know if there anything else that we can do to help make your child's educational experience at Cherrydale Elementary School successful.

Thank you,

The Parent and Family Engagement Committee
