

## 2015/2016 Parent Workshops

### **September 29, 2015 11:45 Lunch and Learn: Monitoring Your Students Academics**

Learn ways to monitor your child's progress by using the Portal, teacher web pages and making an organization station to keep up with school work at home. Understanding MAP scores.

### **October 20 thru Nov 12, Tuesday's and Thursday's 3:45- 5:00 Becoming a Love and**

**Logic Parent:** This 12-15 hour (broken up into 6-8 sessions) is based off the Love and Logic philosophy. This unique approach unlocks the secrets to successful parenting. Participants (max 15 in a class) will receive practical, easy-to-use techniques that work. This curriculum is designed for you to have immediate success with positive changes in your child's behavior. For more information on Love and Logic visit [www.loveandlogic.com](http://www.loveandlogic.com) This program will meet 6-8 times. You are encouraged to attend every meeting in order to get the full benefits of the curriculum. We will offer this program again in March. Dates and times can be changed if necessary!

### **October 27, 2015 11:45 Lunch and Learn: Improving Academic Achievement at Home**

Our Parent Resource Room provides many resources for you to be able to help your student at home. We will share these many resources with you and show you how they can help.

### **November 24, 2015 11:45 Lunch and Learn: RED FLAGS, Signs Your Student is Slipping**

Learn ways to identify early warning signs that your students may be in academic distress, before it is too late. Learn what systems LMS has in place to support these early warning signs.

### **December 15, 2015 11:45 Lunch and Learn: The Gift of Reading**

Reading at home is important. Get ideas on ways to make reading fun, what books are hot and learn ways to ask questions about what your child is reading. How to pick out the right books for your child.
