School Profile

Our school profile is a place where learning is ongoing. We are a center for instruction, enrichment, and community service long after the 3:45 bell, every weekend, and throughout the summer. Built in 1973 and renovated in 2002, our campus is home to a wide variety of successful instructional, athletic, extracurricular, and lifelong learning programs. Despite the size of our student body, approximately 2258 in number, our school provides a welcoming and nurturing environment.

Demographically, we are a suburban high school (grades 9-12) with 65% white, 23% African American, 7% Hispanic, 3% Asian/Pacific Islander, and 2% other ethnicity. The majority of our students perform at or above the national average on standardized tests. The number of students receiving free or reduced lunches is about 26%.

Parental and community involvement are high priorities. The school has 3 active booster clubs, PTSA, and an SIC where the principal serves as a non voting member. We benefit from extensive partnerships with local businesses, corporations, and individuals who support many educational and extracurricular endeavors with funding and volunteers.

We are located in one of the fastest growing areas of the state. Situated at the edge of a major research complex that brings high-tech jobs to our community, our school is charged with providing students with the essential academic and social skills that will afford them a place in the global economy of the 21st century.

MISSION STATEMENT

The administration, faculty, and staff of Mauldin High School, in conjunction with the students, their families, community, shall provide every student the opportunity, challenge, and support to realize his or her educational potential and the ability to assume a productive role in a democratic society.

OUR BELIEFS

Students learn and demonstrate their knowledge and skills in different ways and should be provided with a variety of effective instructional approaches and assessments to support their learning.

- Students must be provided with a challenging and diverse curriculum
- Each student is a valued individual with unique physical, social, emotional, and intellectual needs.
- Exceptional students (e.g. special education, limited English proficiency, gifted and talented, etc.) require special services and resources.
- Students develop an appreciation of different people and cultures through an awareness and understanding of cultural diversity
- Students, teachers, administrators, parents, and the community share the responsibilities for advancing the school's missions.
- Schools and community commitment to continuous improvement enables students to become confident, self-directed, lifelong learners

Highlights of Mauldin High School's 2017 FIRST Robotics team, FRC 1319 "The Flash"

- *FIRST* Robotics is the ultimate Sport for the Mind. On Saturday, March 4th, Mauldin High's *FIRST* Robotics team claimed the Palmetto Regional championship, finishing 1st in a field of 69 teams from 11 states and Canada. The win qualified them to compete at the World Championship Event in Houston, TX April 19-22.
- On Saturday, March 25 the team took 2nd place at the Rocket City (Huntsville, AL) playing against 48 teams from 8 states, Canada, and the Dominican Republic.
- Over 440 teams from 23 countries attended the World Championship in Houston. Our team made it out of the qualifying rounds and into the elimination rounds where they finished as Quarterfinalists.
- Winning at the UL Industrial Safety Award at the World Championship level – the second time in three years!
