

# Parent Portal

An Important Tool

Did you know that you can access your student's daily grades, attendance, and much more via the [Parent Portal](#)? You can also update phone numbers, emergency contact information, and so much more.

The only item that you cannot change is your address if you have moved. It is required that you provide the Registrar's office with two proofs of residency as indicated below.

## Proof of Residency

At least 2 documents from the following list are required.

- Current electric and/or gas bill displaying service address and a billing date within the past 30 days
- Closing statement or current mortgage statement for primary residence showing property address
- Current signed lease agreement with name and phone of landlord
- Most recent state or federal income tax return
- Current statement from DSS or other government agency which provides residency of parent/legal guardian
- Current paycheck stub with address of residence

If you have not accessed the Parent Portal before or you forgot your login credentials, please come to the school office with your current picture ID for your username and password.
