

Weekly Phone Message

September 14, 2020

Good afternoon, Mauldin Middle School family. This is Karen Greene with our weekly update.

All students will take school pictures this week on Wednesday and Thursday. Pictures will be taken during the school day for students enrolled in brick-and-mortar. Students who are enrolled in the virtual program will have the opportunity to have their pictures taken either Wednesday or Thursday beginning at 4:00. Virtual students will enter the school through the front entrance, by the 8th grade car loop. Only students will be allowed in the building and parents can wait in the car loop while their students come inside to have their picture made. Students will need to plan to wear a mask upon entry to the building. If you have questions, please contact Mr. Hurst.

Our school nurses will start the state recommended vision screening for every 7th grade student starting the week of September 21st. The nurses will be following all safety protocols, including wearing masks, when conducting the screening. If you wish for your student to opt out of this screening, please send a signed letter to the nurse.

All students are required to wear a school ID to school every day that they are on campus. Each student was issued one free ID and lanyard. If you would like to buy additional IDs, they can be purchased in the media center for \$5.00. It's a great idea to go ahead and purchase one for your student to keep in his/her book bag. Once a student has been to school five times without an ID, a consequence will be issued.

Also, please remember that our water fountains are turned off but we do have bottle filling stations located around the school. You can purchase a Mauldin Middle School water bottle for \$5.00 through MySchoolBucks.

We have our first volleyball game of the season tomorrow at 5:30. For now, we are only allowing parents of athletes into the games to watch. If this changes, we will certainly let you know.

Have a wonderful week. As always, reach out if we can help.
