Can **FIRST®** LEGO® League teams improve the quality of life for seniors by helping them continue to be independent, engaged, and connected in their communities? In the 2012 Senior Solutions Challenge, over 200,000 children ages 9 to 16* from more than 60 countries will explore the topic of aging and how it may affect a person's ability to maintain his or her lifestyle -- solving issues like getting around, keeping in touch, or staying fit. Teams will research obstacles and then suggest ways to improve the quality of life for the seniors affected.

Gracious sponsorship from Greenville County Schools and the Roper Mountain Science Center.

Thanks to FRC Team EnTech 281 and Wade Hampton High School for their work in organizing this event!
