Oakview's 2010 Artists-in-Residence

Oakview's Artist-in-Residence program is designed to bring culture and the arts to elementary students using a hands-on approach. Students participate in classes with various types of artists while enriching the current curriculum in art and music.

Oakview welcomes Mrs. Kelly Pfeiffer, creative writer as our 2010-2011 Artist in Residence. In conjunction with our Oakview art teachers, students will explore the works of Claude Monet and Romare Bearden through creative writing, drama, music and the visual arts. Through their senses and from their experiences and surroundings, this cross curriculum approach will allow students to explore in-depth their feelings and emotions and learn to express themselves in multitude of ways. In addition, students will study the lives and movement behind the artists to gain a further knowledge of the movement with which each is associated.
