

# Overdrive for Nook

## Step 1. Check out your book on Overdrive

---

- *Use student's e-mail username and password to sign in to the Overdrive website. Once you've found the book you want to check out, click "add to Bookbag."*  
*Proceed from your Bookbag to Checkout before your book expires. In most cases this is 30 minutes. Confirm checkout.*

## Step 2. Download and Open in Adobe Digital Editions

---

- *On your Bookshelf, click the download link to download a file which Adobe Digital Editions will use to download the actual ebook. You can save the file to your computer, but since this isn't the actual ebook and you won't need it later, you can also just choose to open with Adobe Digital Editions. Adobe Digital Editions will download the actual ebook and open it on your computer.*
- *Click on the Library icon (where the red arrow is pointing in the screengrab above) to return to the library view. This is where you'll transfer the book to your nook. Your library will either display as a list of titles or as images, depending which option you toggle on the upper right-hand side.*

## Step 3. Transfer the ebook to your Nook

---

- *If your Nook isn't yet connected to your computer, use the USB cable to connect it and turn it on. It should appear in your Adobe Digital Editions library page*
- *Now, click on the book you want to transfer to your Nook and drag it to your Nook icon*
- *If you click on the Nook icon, it should show up as being in your Nook's library as well. Once you get the hang of it it's quite straightforward. Check out, download, drag and drop, and voila you're reading your library book on your Nook!*

## Step 4. Return the ebook from your Nook and computer

---

- *Your library book will expire after the lending period is over and you won't be able to access it on your Nook any more. But if you want to return the ebook before the lending period is over, either so that you can check out more or just because you want other people to have access to the ebook, you can also return it just like you would a regular book.*
- *Returning it easy in Adobe Digital Editions, but it has to be done from both your Nook and your computer.*  
*First, plug in your Nook and turn it on. Click the icon in Adobe Digital Editions to view your Nook's ebook library. Click on the little arrow in the upper-left-hand corner of the title image and select "Return Borrowed Item":*
- *Once the book disappears, click on the "All Items" bookshelf in Adobe Digital Editions, find the book, and repeat the returning process. If you go to your*

*library's website and visit Overdrive, your book should no longer be on your bookshelf either. If it is, go back to Adobe Digital Editions and check any of its bookshelves for copies of your book.*
