3. Introduction

The Paris Elementary School portfolio was developed to document the changes and progress that the school has made while working to continuously improve current progress. The portfolio provides all stakeholders with an ongoing means for self-assessment, communication, continuous improvement, and accountability.

The school portfolio is a living document that describes Paris and includes evidence of our work. It describes who we are, our vision for the school, goals, plans and progress and achievements in context of the client demographics and deeds, and out of school partnerships.

A team of teachers, administrators and community members was involved in researching and developing the portfolio. Group consensus was reached before final decisions were made during SIC meetings, PTA Board meetings, and Faculty meetings. Much of the narrative sections were taken from discussions of the school and evaluations using the Continuous Improvement Continuums. During these meetings, all stakeholders were asked to contribute evidence of our achievement and ideas for improvements. Through this process, all stakeholders had the opportunity to be heard and to contribute to the development of the portfolio for Paris Elementary School.

The team consists of the entire faculty broken into sub-committees, our PTA Board Members, and our SIC Committee. The faculty specifically analyzed our school's achievement in curriculum, climate, instruction, assessment, technology, and communication. They determined our specific strengths and weaknesses based on gathered evidence. The PTA Board and SIC Committee provided opinion and evidence to account for climate and communication. They also gave their "outside" view of our strengths and weaknesses.

4. Executive Summary

Needs Assessment or Findings for Student Achievement

- SC Ready results indicate that we improved where as other schools like ours declined in ELA results
- SC Ready results indicate that we had no change in our math results whereas 3 out of 4 of schools like ours declined.
- SCPASS results indicate that a larger percentage of students scored Met and Exceeds in science than any of the other schools like ours.
- SCPASS results indicate that we tied with two other schools like ours for the highest percentage of Met and Exemplary.

Needs Assessment or Findings for Teacher and Administrator Quality

- 52.8% of our faculty has advanced degrees. This percentage is more than 10% less than other schools like our and the Median Elementary School.
- All of our teachers are trained in the Fountas & Pinnell Balanced Literacy Program.
- All of our teachers are trained in the Lucy Calkins Writing Program.

Needs Assessment or Findings for School Climate

- According to Evaluation findings, Social and Physical environment was the least favorable condition of Paris. SIC and PTA Committees cited “Continuing to teach to all learning levels” and “More efficient communication methods of wants and needs from teachers to parents”.

Paris’s Significant Challenges from the Past 3 Years

Findings

1. Professional Development Plan 2018 – 19

Using our new benchmarking system MasteryConnect allowed us to be able to analyze, track, and use data more effectively. Our professional development was used to fine tune individual, small group, and class instruction. The Professional Learning Communities (PLCs) were instrumental in this effort. Our Instructional Coach has lead teachers through the detailed item analysis of question structure and terminology to allow the teachers to hone in specific areas of improvement. Under the guidance of our literacy specialist, we are continuing revisiting the essentials of Balanced Literacy in conjunction with the district focus.

2. Professional Development Plan 2017 – 18

With the introduction of our new benchmarking system MasteryConnect, we have shifted focus in in our professional development to not only the nuts and bolts of “how to” implement and manage the test in addition to the analysis of the data and application of remediation and acceleration based on the data. Our Instructional Coach has lead teachers through the detailed item analysis of question structure, potential problems in comprehension for students, and remediation for individuals, small groups, and even entire classes as necessary. Our hope for the future is the more comprehensive application of MasteryConnect for progress monitoring in the use of Common Formative Assessments. We are hoping the tracking of student data will enable teachers to hone in on areas of improvements.

3. Professional Development Plan 2016 – 17

Under the continued guidance of our literacy specialist, we are continuing with our work in Lucy Calkins Writing Framework. Our Intermediate teachers undergo training this year. We are continuing to making writing across the curriculum an integral part of our teaching procedures. In addition, a renewed push towards integrated technology supports new devices like Chromebooks in the classroom.

4. Professional Development Plan 2015 – 16

Under the guidance of our literacy specialist, our next school year will focus on a school-wide writing program. Our staff will participate in training using the Lucy Calkins Writing Framework in conjunction with our ongoing implementation of Fountas and Pinnel Balanced Literacy System. Our hope is to use vertical articulation and Calkins research to make writing across the curriculum a vital part of our teaching.

5. Professional Development Plan 2014 – 15

In working with the instructional coach, we hope to foster a feeling of confidence in the new Common Core Standards, Fountas & Pinnell Balanced Literacy, and their integration and implementation. We hope that faculty meetings and Professional Learning Communities (PLC) can become a sharing of methods, an ongoing discussion of pedagogy, and an exchange of ideas—what works and what does not. Our staff will undergo training in the Fountas & Pinnell program over the 2014-2015 school year.

At least one coordinated drill is held regionally in which the district participates.

Specific safety concerns regarding buildings and grounds at the school site are handled by the maintenance department if they cannot be remedied by site custodians or utility workers assigned to site duties. Our professional staff of 4 custodians performs basic cleaning operations in every classroom every day.

Other aspects of the school/district safety program include:

- District safety committee
