

Device Authentication Process

If your school device is having difficulty accessing the internet on your home WIFI, please try using the following GCSD Authentication process.

- Before starting the authentication process, be sure to close all internet browsers and any open internet windows by clicking the “x” at the top right corner of your browser screen.

- Check for minimized browsers at the bottom of your screen. Make sure to close those as well.
- Connect to your home internet WiFi.
- After you have connected to your WiFi at home, look for an icon on your desktop like the one in the picture below.

GCSD Authenticate

- After clicking this icon, you should see a prompt open in your browser instructing you to enter your regular username and password, as seen in the image below.

GCSD AUTHENTICATE

When using your device outside of the GCSD network or if you are using a Chromebook you are required to authenticate for Internet access.

INSTRUCTIONS

At the authentication page sign in using your district credentials, be sure to set the time accordingly the default is one hour, you will need to re-authenticate once time is up.

Account Information

Username:

Password:

[Log In](#) [Help?](#)

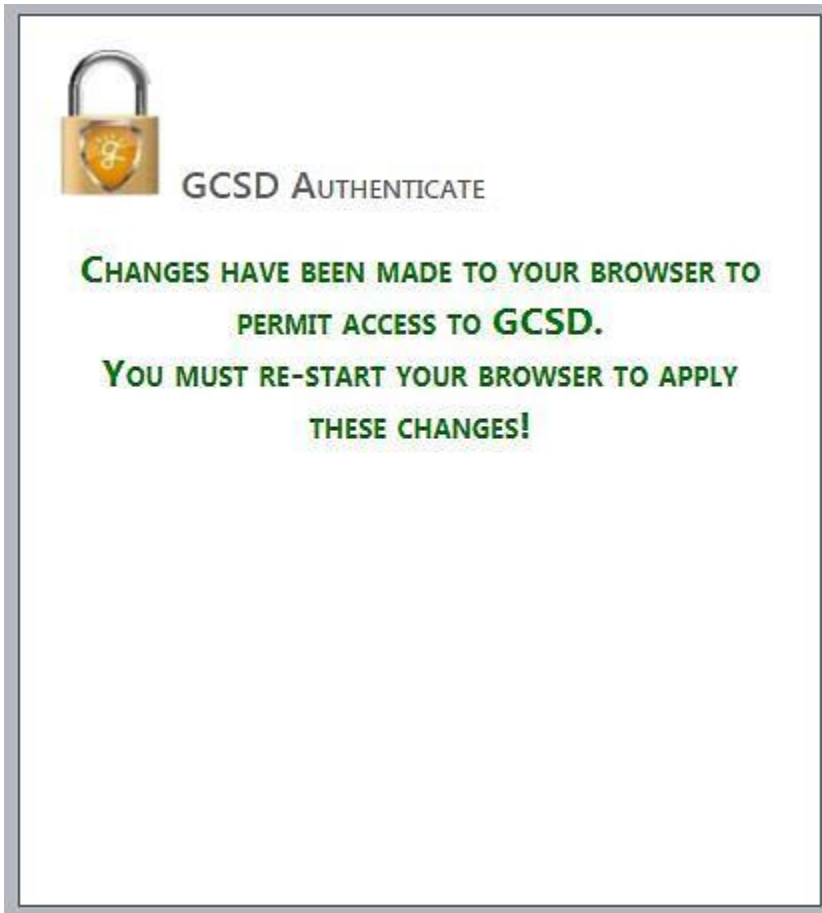

I need Internet access for hour(s).
174.196.133.78

Use same username and password as you use to log in to your device and school google account.

Do not use your student email with the ending "@greenvilleschools.us"

Make sure to change your time limit to allow uninterrupted internet access (1-6 hours). If your time limit expires, you will have to complete the authentication process again.

- After the authentication login is successful, you will see the following screen.

- The term “restart your browser” simply means to close this browser window (do not restart your computer) and open a new browser using Google Chrome. 
- Do not use Internet Explorer to access Google products. Only use Google Chrome to access Classroom and Drive.
- If this authentication process does not work, shut down your device, wait a few moments. Turn on your device, log in using your student username and password, and retry the authentication process again.
