SIMPSONVILLE ELEMENTARY:

Simpsonville Elementary School is helping all students develop the world class skills and life and career characteristics of the Profile of the South Carolina Graduate by “Preparing students to be productive, respectful, and responsible”. We are an award-winning school with a history of academic excellence.

We use a balanced literacy program with Fountas and Pinnell strategies for our literacy curriculum. Power Writing, Every Day Counts math, RTI program, academic enrichment, and strong standards-based core instruction contribute to students' success. Success is measured by standardized tests like T21, MAP, SCReady, SC PASS, and CogAt. FastBridge, student classroom performance, logs of teacher conferences, PTA meetings, and staff development are other methods used to measure student achievement. Our vision is to help each child reach their full potential through creative and challenging learning opportunities. Field trips at each level enrich our curriculum.

We are also providing a school environment conducive to learning by promoting character education and civic responsibility. We promote a healthy lifestyle for our students here at Simpsonville Elementary.

We have the support of our parents and our community as evidenced by hundreds of volunteer hours each year. Being a "family-friendly" school is important to us. We will continue to keep our standards high by analyzing test data, through commitments to team planning, and maintaining an atmosphere where children love to come to school to learn.
