

Westcliffe Elementary School
Title I Annual Meeting
Sept. 8, 2022
Minutes

The meeting began with Mrs. Farmer welcoming all in attendance.

TIF spoke to Westcliffe's participation and eligibility requirements to be supported by Title I funds.

Our Direct Certification percentage rose this year and our allocation was increased.

Parents' Rights to be Involved were explained

Title I Requirements were explained and a handout was provided outlining how these requirements and how our 2022-2023 plan addresses them.

Westcliffe's draft copy of Parent and Family Engagement Policy was passed out among the attendees with a checklist. The group then went through our policy to ensure we have met all the required components. The note keeper recorded each section as they were matched to the checklist.

Westcliffe's School-Parent Compact was distributed and the process continued with section 10 of the checklist. Similarities and required components were highlighted and marked from the 2021 Compact and the revised 2022 draft. The team felt that the new draft spoke to all important and required points in a more clear and concise manner and approved that as the draft that would be sent home on Sept. 12 for parent and family input and approval.

Parent Involvement Calendar was shared with attention this year on academics and Social Emotional Learning sessions based on requests from parents in surveys and Family Engagement evaluations.

Funds will continue to be used to support an Extended Day program that saw success last year. The focus will change to reflect our shift in reading instruction and Number Sense.

With no questions or discussion, the meeting was adjourned.
