NEW WHHS STUDENT DRESS CODE

We convened a 32 member committee which included students, parents, teachers, and administrators to review our student dress code. I want to thank this diverse committee for their commitment on this work. I also appreciate the Faculty Council for their full consensus of this new policy. The committee's work over the last four months surfaced several themes.

The Wade Hampton High School's vision centers on a shared philosophy that we must serve our diverse student body with a personalized plan for all students beginning at their current academic level and guiding them to graduation and beyond, fully prepared and confident to contribute to society. Our school's student dress code supports equitable educational access and is written in a manner that does not reinforce stereotypes. To ensure effective and equitable enforcement of this dress code, school staff shall enforce the dress code consistently and in a manner that does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income or body type/size.

You can review the [WHHS DRESS CODE](#) here. It will be added to the 2020-2021 STUDENT HANDBOOK located on the school's website. The dress code will go into effect Monday, October 26, 2020.

QUESTIONS ABOUT VIRTUAL INSTRUCTION

Can parents or non-students be present and off-camera during virtual instruction?

Parents and legal guardians listening to or watching virtual instruction is permissible pursuant to FERPA and would be similar to a classroom observation. There is practically nothing that a school or teacher can do to prevent other individuals who are with the student from either watching or listening to virtual instruction other than to make sure that the links sent to students for either live instruction or for recordings are secure and not accessible to be joined by non-students.

What about tutors or other individuals who are not parents or guardians helping a student?

As stated in the section immediately above, the reality of virtual instruction is that tutors and other individuals (including siblings) working with a student may have access to either live instruction or recordings while supporting a student. The parents/guardians and/or students are responsible for providing information and assignments to these individuals. While an arrangement between a parent and a tutor is preferred, parents and legal guardians may request specific permission for a tutor or another person supporting a student to be added on a student's account either in Google Classroom or in Student Backpack. Please see the below links for instructions on the process for an individual to be added to a student's Google Classroom or Backpack account.
