GCS TEACHER OF THE YEAR 2020--2ND RUNNER UP

Congratulations to Matthew Large for being named the Greenville County Schools Teacher of the Year 2nd Runner for 2020!!

He is an awesome talent who clearly has a passion for helping students. His core belief that building lasting relationships is the secret to fostering strong academic growth is students. We appreciate his tenacity in the classroom and on the athletic fields/courts.

2021 NATIONAL MERIT SCHOLARSHIP SEMIFINALIST

Congrats to Jackson Brewer and Zain Taylor for being named as 2021 National Merit Semifinalist. The mission of National Merit Scholarship Program is to recognize and honor the academically talented students of the United States.

In early September, about 16,000 students, or approximately one-third of the 50,000 high scorers, are notified that they have qualified as Semifinalists. To ensure that academically talented young people from all parts of the United States are included in this talent pool, Semifinalists are designated on a state-representational basis. Semifinalists are the highest scoring entrants in each state. Qualifying scores vary from state to state and from year to year, but the scores of all Semifinalists are extremely high. NMSC provides scholarship application materials to Semifinalists through their high schools. To be considered for a National Merit Scholarship, Semifinalists must advance to Finalist standing in the competition by meeting high academic standards and all other requirements explained in the information provided to each Semifinalist.

Although they will not continue in the 2021 competition for National Merit Scholarship awards, Commended Students placed among the top 50,000 scorers of more than 1.5 million students who entered the 2021 competition by taking the 2019 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT).

QUESTIONS ABOUT VIRTUAL INSTRUCTION

Can parents or non-students be present and off-camera during virtual instruction?

Parents and legal guardians listening to or watching virtual instruction is permissible pursuant to FERPA and would be similar to a classroom observation. There is practically nothing that a school or teacher can do to prevent other individuals who are with the student from either watching or listening to virtual instruction other than to make sure that the links sent to students for either live instruction or for recordings are secure and not accessible to be joined by non-students.

What about tutors or other individuals who are not parents or guardians helping a student?

As stated in the section immediately above, the reality of virtual instruction is that tutors and other individuals (including siblings) working with a student may have access to either live instruction or recordings while supporting a student. The parents/guardians and/or students are responsible for providing information and assignments to these individuals. While an arrangement between a parent and a tutor is preferred, parents and legal guardians may request specific permission for a tutor or another person supporting a student to be added on a student's account either in Google Classroom or in Student Backpack. Please see the below links for instructions on the process for an individual to be added to a student's Google Classroom or Backpack account.
